

Methanol in our lives...

Methanol Primary Derivatives

Derivatives	Drivers
Formaldehyde <ul style="list-style-type: none"> Formaldehyde Butanediol Acetal resins MDI 	<ul style="list-style-type: none"> renovation, new building activity, automobile production panelboard substitution for solid wood changing wood panel mix growth in high technology chemicals
Acetic Acid <ul style="list-style-type: none"> VAM Acetic anhydride Terephthalic acid Solvent acetate Solvent esters 	<ul style="list-style-type: none"> building activity, durables output, automobile production clean air legislation packaging trends, growth in plastic recycling paints and coatings
Fuels <ul style="list-style-type: none"> Reformulated Gasoline (RFG) Oxygenated Fuels Fuel Cell Fuels 	<ul style="list-style-type: none"> demand for better health, environment clean air legislation displacement of lead, aromatics zero and near-zero emission vehicles
Other <ul style="list-style-type: none"> Methyl methacrylate Methylamines Chloromethanes Windshield Washer Fluid 	<ul style="list-style-type: none"> total chemical production general economic activity environmental pressures widespread automotive use
